Remarks from the Recreation and Parks Committee Members

Alderman Kleiner - Nothing to Report

Alderman Witt - Asked if we are hiring a Support Counselor again. I informed him that we are and he was extremely beneficial last year. He asked about bussing youths to and from our facility. I informed him transportation is still an issue, but the bus was not utilized enough and when it was, there were a lot of behavior issues. We talked about getting the basketball courts resurfaced and putting that into the capital budget.
